

The New Age of Financial Planning

At MassMutual, we believe that who we become will largely be determined by the books we read and the people we surround ourselves with. Greatness is attained when our minds are engaged in a work that brings out our best selves and engages us to think of others while thinking bigger than ourselves.

If you agree, we would like to meet you.

As one of our trusted associates, you will be aligned with some of Utah's brightest and most forward thinking minds. Led by one of Utah State University's Young Alumni of the Year and Utah Business Magazine 40 under 40 recipient, MassMutual is paving a new path in the financial planning industry.

Leveraging today's technology, our associates are quickly developed into cause motivated professionals. Each of our associates are sponsored in obtaining all related licensing as well as their Certified Financial Planner (CFP) designation. Of course, there's bubble soccer too.

The real perks come from being a valued member of a team that is caught up in the cause of adding significance in the lives of others and enjoying the journey along the way.

Want to know more? We'd like to get to know you as well.
